Security Information  
UNITED STATES CIVIL SERVICE COMMISSION

WASHINGTON 25, D. C.

October 21, 1953

NATIONAL SECURITY COUNCIL

1. Introduction

Section 14 of Executive Order 10450, which established the current employee security program, provides that the Civil Service Commission shall make a continuing study of the manner in which the Order is being implemented by departments and agencies and make periodic reports to the National Security Council. There is submitted herewith, as was agreed at a Cabinet meeting on October 2, 1953, a preliminary report covering significant developments to date in the 68 departments and agencies covered by the Order.

In connection with the preparation of this report the Chairman of the Commission, on October 5, 1953, requested that all department and agency heads supply certain factual data regarding program activity and development within their establishments. This report is based on statistics and other data available within the Commission and on such data as supplied by 56 departments and agencies within the time allowed.

Detailed information regarding significant aspects of the security program will be found in later paragraphs of this report and its attachments. The following, however, is a summary of activity under this program on a government-wide basis.

2. Summary of Activities

The preliminary steps of developing regulations and administrative machinery for the execution of the program called for in the Executive Order have been largely accomplished. The use of the machinery has been relatively limited up to the present time. This limited activity is not indicative of noncompliance, but rather of the administrative complications involved in conversion from the old loyalty program to the new security program. It is clear, however, that in order to fulfill the objectives of the Order, intensified management attention must be given to the execution of the program.

CONFIDENTIAL  
Security Information

**CONFIDENTIAL**  
**SECURITY INFORMATION**

-2-

Regulations and instructions for implementing E.O. 10450 have been issued by all but seven departments and agencies, and Personnel Security Officers, or other appropriate officials, have been designated to review and evaluate reports of investigation and to perform other necessary functions. Appropriate positions have been designated as sensitive in the various departments and agencies in accordance with the provisions of Section 3(b) of the Order. Necessary investigations have been completed or initiated on a majority of the persons occupying such positions.

In accordance with instructions in the President's letter accompanying the Order, the Commission has established rosters of employees who have been designated for service on hearing boards. Thus far, requests for the roster of hearing board members in Washington, D. C., have been received from eight departments and agencies. Requests for field service rosters have been received from 31 establishments. The rosters thus far have proved to be adequate, as only 12 hearings have been held to date.

Since the effective date of the Order, 51,955 cases have been referred to the departments and agencies by the Civil Service Commission for consideration and action under the Order. These cases represent new hires and incumbents of positions designated as sensitive. During the same period, 6,836 investigations of similar cases were initiated by the agencies themselves. In addition, it is indicated that there are approximately 12,000 cases of persons previously investigated under E.O. 9835 whose cases require action under E.O. 10450. Under Section 5 of the Order, which necessitates security review because of derogatory information received or developed by the employing agency, 1,286 new cases have arisen in the departments and agencies.

Reports received in the Commission show that agency action on these cases has resulted in the rejection of 50 applicants, the suspension of 50 employees, and the separation of 929 employees. Favorable action has been reported on 22,052 cases and 2,751 persons are reported as having resigned prior to final decision. 50 employees were reassigned to other positions. 12 hearings are reported as having been conducted in connection with the actions taken.

The following table summarizes agency activity on cases which have arisen for consideration under the Order to date:

**CONFIDENTIAL**  
**SECURITY INFORMATION**

**CONFIDENTIAL**  
**SECURITY INFORMATION**

-3-

	New Investi- gations	Cases Previously Investigated Under E.O. 9835	Employee Cases Under Sec. 5, E.O. 10450	Total
Total	58,791	12,000	1,311	72,102
Adjudicated	24,107	513	214	24,834
Balance in Process	34,684	11,487	1,097	47,268
Corrective Actions Resulting				
1. Applicants rejected	50	0	0	50
2. Separations	843	17	69	929
3. Suspensions	19	29	2	50
4. Reassignments	0	39	11	50
5. Resignations	2,283	412	56	2,751
	3,195	497	138	3,830

With respect to the separations and resignations reported, it is pointed out that the figures shown include separations under both E.O. 10450 and other procedures and do not necessarily indicate that all of the separations occurred because of security reasons.

Pursuant to agreement reached between representatives of the Department of Justice, the National Security Council, and the Civil Service Commission, there is attached as Exhibit 1 a suggested Press Release to be considered by the Council for possible distribution by the White House.

### 3. Agency Regulations Under E.O. 10450

Information furnished the Commission indicates that, with seven exceptions, all departments and agencies have issued regulations pursuant to E.O. 10450. The Smithsonian Institution advises that their regulations are being prepared and are expected to be issued within 30 days. Advice from the Soldiers Home and U.S. Information Agency is that their regulations are now in process of completion. The Departments of the Army, Navy, and Air Force, indicate that their internal regulations are in final form and will be published shortly. In

**CONFIDENTIAL**  
**SECURITY INFORMATION**

CONFIDENTIAL  
SECURITY INFORMATION

-4-

the meantime, interim implementing instructions have been issued covering operations under the Order. General Services Administration advises that its regulations are now before the Attorney General for review and that issuance has been withheld pending the result of such review.

The Commission is informed that, in line with the provisions of Section 13 of the Order, 38 agencies have submitted their internal regulations to the Attorney General for his review and comment. Several of the agencies have indicated that, in preparing their own regulations, they followed the sample prepared by the Attorney General and did not consider it necessary to submit their drafts for review prior to issuance. For those agencies whose regulations were not previously reviewed by the Attorney General, copies will be furnished by the Civil Service Commission for such review, comment and suggestion as he may deem advisable.

By letter of May 26, 1953, the Commission asked that all departments and agencies furnish copies of their regulations and instructions to the Civil Service Commission. To date, 60 agencies have complied with this request. All regulations received by the Commission have been reviewed. No regulatory provisions have been detected which, in themselves, appear to reflect deficiencies in agency employee security programs. For the most part, the regulations reviewed follow rather closely the sample regulations prepared by the Attorney General and distributed with the Executive Order.

#### 4. Appointment of Personnel Security Officers

Information furnished the Commission shows that at least 63 of the departments and agencies have designated officials to review and evaluate investigative reports and to perform other prescribed functions as personnel security officers under the provisions of E.O. 10450. Available information indicates that all the departments and agencies, with eight exceptions, have secured full field investigations or comparable security clearances on all persons assigned to perform duties of this nature. Four of the agencies, who have not cleared their personnel security officers (Board of Governors of the Federal Reserve System, Indian Claims Commission, Tax Court, and Smithsonian Institution) indicate that they have no sensitive positions within their agencies. The Library of Congress, which reports having 40 sensitive positions, advises that it has cleared its personnel security officers on the basis of a national agency check and at least ten years of continuous honorable Federal service. The Federal Mediation and Conciliation Service and the Veterans Administration report that full field investigation has been, or shortly will be, requested; Federal Deposit Insurance Corporation advises that it has the matter under consideration. In the event the Commission's continuing study indicates that the lack of a full field investigation in these instances in any way impairs the national security, appropriate reports will be made to the National Security Council and to the heads of the agencies concerned.

CONFIDENTIAL  
SECURITY INFORMATION

-5-

By letter dated September 2, 1953, the departments and agencies were requested to furnish information to the Civil Service Commission with respect to persons assigned to review and evaluate reports containing derogatory information. Thus far, 58 departments and agencies have responded to this request. The data secured is being utilized both in connection with the appraisal of agency security programs and in connection with a study presently being conducted by the Commission looking to the improvement of appropriate qualifications and classification standards for positions of this character.

#### 5. Designations of Sensitive Positions

Reports supplied to the Commission show that at least 176,000 positions have been designated as sensitive in the various departments and agencies in accordance with Section 3(b) of E.O. 10450. Including those in departments and agencies who were unable to supply a positive figure on short notice, it appears that more than 10% of the positions in the Executive Branch of the government have been designated as sensitive. The standards prescribed in the Order have been applied in determining those positions so designated.

Of the total number of positions designated as sensitive, full field investigations have been completed or initiated for more than 147,000 incumbents. Of the approximately 29,000 cases where full field investigation has not been conducted, 28,236 represent cases of persons who occupied their positions before they were designated as sensitive. 583 persons who have not been subjected to full field investigation have been appointed to sensitive positions on an emergency basis under the provisions of Section 3(b) of the Order which permits appointment to sensitive position for a limited period pending completion of full field investigation. Appropriate measures have been taken to insure the proper clearance of all persons occupying positions designated as sensitive.

#### 6. Security Hearing Board Rosters

The President's letter which accompanied Executive Order 10450 directed the Civil Service Commission to establish and effectuate a procedure whereby each department and agency will be furnished competent and disinterested government employees from outside the department or agency concerned to sit as members of security hearing boards. Pursuant to this instruction, the Commission has established rosters of employees, both in its central office and in each of its 12 regional offices, from which the departments and agencies may select members to conduct hearings in cases arising under the Order.

For the departmental service in Washington, two rosters have been established. One of these is composed of employees designated by the departments of Army, Navy, and Air Force, and is used by the three

CONFIDENTIAL  
SECURITY INFORMATION

## SECURITY INFORMATION

-6-

constituent departments of the Department of Defense for the selection of hearing board members. This roster includes the names of 35 employees and has proved adequate.

A second roster, maintained in the Commission's control office, contains the names of employees nominated for hearing board duty by the departments and agencies in Washington, exclusive of the Department of Defense. Departments and agencies outside of the Department of Defense use this roster for the selection of hearing board members. There are presently 90 names on this roster representing 26 departments and agencies. Attached, as Exhibit 2, is a tabulation of the agency representation on this roster and the number of hearing board members designated by each. A copy of the roster for the departmental service showing title and grade of the individuals named by department or agency heads is attached as Exhibit 3.

Requests for the roster have been received from eight departments and agencies outside Department of Defense, and there is no indication thus far that the list of members has not been adequate. However, in anticipation of increasing need for security hearing boards, and recognizing that the workload involved in providing hearing board members should be widely distributed, the Commission has issued instructions which provide for additional designations in the ratio of one member for each 1,000 full-time employees with a minimum of one designation for each agency having as many as 100 full-time employees. A copy of this instruction is attached as Exhibit 4.

The Commission's regional offices have received requests for field service rosters from 31 agencies. There is no indication that the lists have not proved to be adequate. There are indications, however, that wider agency representation and broader geographical distribution of membership would be desirable.

Attached as Exhibit 5 is a tabulation showing the composition of hearing board rosters in the field service by Civil Service region and agencies represented. Steps are being taken to secure additional designations to provide broader agency representation on the roster and to avoid costly and unreasonable travel in connection with hearing board activity.

#### 7. Review of Cases Previously Investigated Under E.O. 9835

Section 4 of the Order provides that the cases of all employees who were the subject of full field investigation under E.O. 9835 must be reviewed and, if necessary, readjudicated under the standards established in E.O. 10450. Information received by the Commission indicates that there are approximately 12,000 employees in the departments and agencies who were the subject of full field investigation under E.O. 9835 and whose cases are subject to review and readjudication. Reports

CONFIDENTIAL  
SECURITY INFORMATION

-7-

show that 513 of these cases have been readjudicated under E.O. 10450. It is reported that 39 employees were reassigned to other positions; 29 were suspended; 4 were terminated; and 412 resigned while adjudication was pending. In 13 instances the employees were separated under procedures other than the provisions of E.O. 10450.

Available data indicates that there are at present approximately 11,000 old E.O. 9835 cases which are pending additional investigation, are in process of readjudication, or are pending final action. Agency reports state that steps are being taken to process these cases under E.O. 10450.

Attached as Exhibit 6 is a tabulation showing the distribution and status of E.O. 9835 cases by departments and agencies.

#### 8. New Cases Developed Under Section 5 of E.O. 10450

Under Section 5 of the Order the heads of departments and agencies are required to review, and, if necessary, readjudicate the cases of all employees concerning whom there is developed or received any information indicating that retention in employment of the officer or employee may not be clearly consistent with the interests of national security. Reports show that, since May 27, 1953, 13,011 such cases have arisen on a government-wide basis. Of these, 214 have been finally adjudicated and 1,097 are pending completion of investigation and adjudication. Of the cases disposed of, 11 employees were reassigned to other positions; 2 were suspended; 16 were terminated; and 56 resigned while adjudication was pending. 53 additional employees were separated under procedures other than the provisions of E.O. 10450.

#### 9. New Cases Investigated Under the Provisions of E.O. 10450

Since May 27, 1953, a total of 51,955 cases investigated by the Civil Service Commission and the Federal Bureau of Investigation have been referred to the departments and agencies for consideration under the provisions of E.O. 10450. Of these, reports received by the Commission show that action has been taken by the agencies on 24,060 cases, leaving 27,895 cases pending final action and report. Attached as Exhibit 7 is a tabulation showing, by type of investigation, the total number of cases submitted to the departments and agencies, on a government-wide basis, the actions taken thereon, and the numbers pending action. There is likewise attached as Exhibit 8 a tabulation showing, by department and agency, the actions taken on the total number of cases submitted for their consideration under E.O. 10450.

During this same period, the departments and agencies have initiated 6,836 investigations, employing their own investigative facilities. Reports received in the Commission indicates that final action has been taken on 47 of these cases, leaving a balance of 6,789 cases

CONFIDENTIAL  
SECURITY INFORMATION

## SECURITY INFORMATION

-8-

pending completion of investigation and/or final decision. Attached as Exhibit 9 is a tabulation showing agency initiated investigations and the actions taken on those cases which have been reported as closed.

#### 10. Commission Appraisal Activity

There are two primary phases of the Commission's program for carrying out its responsibilities under Section 14 of the Order:

- A. A program review of the way in which agencies are carrying out the security program.
- B. An actual review of representative cases handled by the agencies under the security program.

A Security Appraisal Office has been established within the Commission which will:

1. Establish standards and instructions for carrying out the appraisal program within the Commission.
2. Analyze statistical data on the operation of the program.
3. Obtain and evaluate facts as to the manner in which the agencies are operating the program through:
  - (a) Inspection of agency programs.
  - (2) Review of actual cases decided by the agencies.
4. Prepare necessary reports to the National Security Council, and department and agency heads as required by Section 14.

In addition, the Security Appraisal Office maintains the hearing board rosters for the departmental service, prepares necessary training materials, and conducts such training of hearing board members as may be required.

With respect to the inspection of agency programs, necessary agenda and schedules have been prepared and inspections of three agency programs have been scheduled to begin on October 19, 1953. Present plans call for the inspection of from 15 to 20 additional agency programs by the end of calendar year 1953.

These inspections will include a review of representative cases decided by the agencies under E.O. 10450. Such review will not be for the purpose of evaluating agency decisions but rather for the purpose of determining whether actions in individual cases reflect program deficiencies.

CONFIDENTIAL  
SECURITY INFORMATION

**CONFIDENTIAL**  
**SECURITY INFORMATION**

-9-

Under current procedures, reports are received by the Civil Service Commission showing the actions taken by the departments and agencies on individual cases in which investigations have been initiated under the Executive Order. Steps are being taken to supplement these reporting procedures so that additional statistical data will be furnished periodically concerning the review of cases previously investigated under E.O. 9835, employee cases arising under Section 5 of E.O. 10450, activity respecting suspensions, hearings, and terminations under the Order, and other pertinent program aspects. Analyses of such statistical data will be included in the Commission's semi-annual reports to the National Security Council.

Appropriate procedures have been established to insure that security information received in connection with the Commission's appraisal activity is properly safeguarded.

Philip Young  
Chairman

**CONFIDENTIAL**  
**SECURITY INFORMATION**

**SUGGESTED PRESS RELEASE ON**

**EMPLOYEE SECURITY PROGRAM**

In the first four months' operation of the employee security program established by Executive Order 10450 last May, 1,456 government employees were separated or barred from Federal service. The White House revealed today after study of a preliminary progress statement submitted to the National Security Council by the Civil Service Commission.

Since last May, approximately 72,000 cases have been handled or are in process under the new program. Of these, more than 20,000 have been acted upon favorably. It was emphasized that 12,000 of the total number of cases were carried over from the old loyalty program and require readjudication under the new Order.

Departments and agencies generally, the appraisal showed, have completed the formulation of their internal regulations, designation of Personnel Security Officers, and designations of positions described as sensitive. These sensitive positions, the White House said, total roughly about 10 per cent of all Federal positions, government-wide.

Security Hearing board rosters, composed of employees designated by the departments and agencies and maintained by the Civil Service Commission, have been adequate to handle the number of requests received for hearings to date. Larger numbers of Security Hearing Board members may be needed at a later stage of the program. For this reason the Commission has asked departments and agencies to designate additional persons to serve on such boards and has prescribed a ratio of one designation per 1,000 employees for the larger agencies.

Of the total number of cases handled, hearings have been required in 12 instances, it was revealed. Such hearings are held at the request of the employee concerned.

UNITED STATES CIVIL SERVICE COMMISSION  
WASHINGTON 25, D. C.

October 2, 1953  
LSM:ht

DEPARTMENTAL CIRCULAR NO. 708, Supplement No. 2

TO HEADS OF DEPARTMENTS AND INDEPENDENT ESTABLISHMENTS

SUBJECT: Designation of officers and employees to Security Hearing Board Rosters -- availability of rosters for use by departments and agencies.

1. Departmental Circular No. 708, dated May 1, 1953, requested that departments and agencies submit to the Civil Service Commission the names of employees designated to be available for service as members of Security Hearing Boards. Security Hearing Board Rosters, containing the names which have been submitted, are maintained, for the departmental service in Washington, in the Commission's central office and, for the field service, in each of the Commission's regional offices.
2. Whenever an agency finds it necessary to establish a Hearing Board, it should request a copy of the roster from the appropriate office of the Civil Service Commission. The lists furnished in response to such requests will show the name of each employee who has been designated, the agency in which he is employed, and the telephone extension through which he can be reached. Selection of individual employees to serve on a Hearing Board will be the responsibility of the department or agency establishing the Board.
3. In the event any considerable time has elapsed between receipt of a roster and the date it is to be used for selecting a Hearing Board member, a check should be made with the Commission so that any deletions or additions to the roster may be furnished.
4. For the departmental service, the roster which has been prepared does not include the names of employees of the Department of Defense. A separate roster is maintained for that department.
5. Departments and agencies in Washington should address requests for copies of the rosters to the Commission, Attention: Security Appraisal Staff. In the field service, such requests should be directed to the appropriate Civil Service regional office.
6. At the time designations were originally requested, no specific requirement was established regarding the number of names to be furnished
